Hotel and Non-Course Information Contact:

Kory Brown: sokbb@co.potter.tx.us

70 hours of this course instruction meets the Crime Scene Certification Board's approved instruction for the Crime Scene Certifications

Instructor: Everett Baxter Jr.

Everett Baxter Jr Forensics, LLC

Each student will receive the books Complete Crime Scene Investigation Handbook and Complete Crime Scene Investigation Workbook.

Items each student is required to bring:

The students would need to bring a camera, an external flash, a tripod, a sync or PC cord for the external flash, a shutter release cord or remote control and a flashlight. Optional Item: If your agency has an Alternate Light Source and can spare being without it for 2 weeks, bring it to the class. The student will use that Alternate Light Source when performing several of the practical exercises.

Course Description

The Crime Scene Investigation Course is for Crime Scene Investigators, Evidence Technicians, Detectives, Investigators, Uniformed Officers and anyone who has the responsibility of processing a crime scene. The student will learn the necessary skills to identify, document, collect and process various types of evidence that may be encountered at a crime scene.

This course will be both challenging and demanding. Almost all blocks of instruction will be followed by an exercise or exercises to reinforce the lecture materials, with a majority of the exercises including photography as part of the exercise. Some of the exercises will be as simple as writing a description from a photograph to as complex as actually utilizing various fingerprinting and sketching techniques.

The students will learn the various techniques to document evidence, which includes note taking, photography and sketching. The students will then progress into various methods used to locate evidence. The students will learn the various types of physical evidence and the appropriate methods used to document the particular evidence.

Course Content

The course will follow the format of the book The Complete Crime Scene Investigation Handbook. The book is divided into 24 chapters, which includes serology evidence, trace evidence, firearms evidence, toolmark evidence, latent fingerprint development, footwear and tire mark evidence, computer evidence and questioned document evidence. The students will then use the taught techniques to identify, document and preserve these types of evidence.

The students will then learn the documentation of evidence that may not always present at all crime scenes, however may encounter from time to time. These various special considerations include shooting scene documentation, bloodstain documentation, clandestine grave documentation, fire scenes and clothing and injury documentation.

The students will wind down the training with lectures on the processing methodology and report writing. The students will then have an opportunity to put their knowledge to work by processing a mock crime scene.
